

The Crown and the King

1.The Crown of evermore 4:03

-The Crown of Evermore

Music & Lyrics : Valor

Just like a vision came inside my wildest dreams
Among the darkness and enchanted evil screams
The voice so clearly spoke of past forgotten lore
Of sunken cities and of underwater shores

I travelled deep inside the forest of the lost
I challenged face to face what mankind fears the most
I swam the seven seas and climbed the highest mounts
I crossed unholy lands in search of sacred grounds

With words that never touched the mind of man before
The secret place where lies the crown of evermore
Now I can see what man has never seen before
The holy altar and the crown of evermore

I lift my hand to touch the wonder of all kings
What grants eternal glory and what fortune brings
I hear that voice again that's guiding my pace
Though now I walk away my heart is filled with grace

With words that never touched the mind of man before
The secret place where lies the crown of evermore
Now I can see what man has never seen before
The holy altar and the crown of evermore

Now I can see what man has never seen before
The holy altar and the lost Crown of Evermore
Now that I see what man has never seen before
No one deserves to wear the blessed Crown of Evermore

The holy altar and the lost Crown of Evermore
No one deserves to wear the blessed Crown of Evermore
The Crown of Evermore

2.The King (ACCEPT cover) 3:20

Music & Lyrics : Dirkschneider, Baltes,
Hoffmann, Fischer, Kaufmann, Steffens

He was the leader of a small gang
Committing crimes each day
But time has changed where he was proud
It's a far away

He took living easy, his bad reputation
Oh it was known all around
But he didn't care no, he made dirty money
Now he is down and out

Thought he knew the tricks of life
Prowling in the dark
Now he's left by all his friends
'Cause he lived apart, of them
He was a leader, malicious and violent
His fame is covered with blood
Now he's just a number, he lost all his power
The king has lost his face

Down down down, though the king lost his crown
Caught and sentenced, he was guilty
Down down down, though the king lost his crown
It's too late far too high
Late far too high
